

INTRODUCING THE IDEAL SOLUTION FOR THE ACTIVE NUTRITION MARKET

Volactive® Pro₂O™ is an undenatured, complete whey protein isolate, specially formulated for clear protein beverages.

After exercise, the human body regains optimal condition through a three-pronged process of **Rehydration, Refuelling and Reconditioning**. Until now, water-based sports drinks have only fulfilled up to two of these requirements.

Volactive® Pro₂O™ brings all the benefits of whey protein to one clear solution.

Volactive®
Pro₂O™

Vegetarian

GMO free

Halal certified

Kosher certified

Pro₂O™

FUNCTIONAL HYDRATION

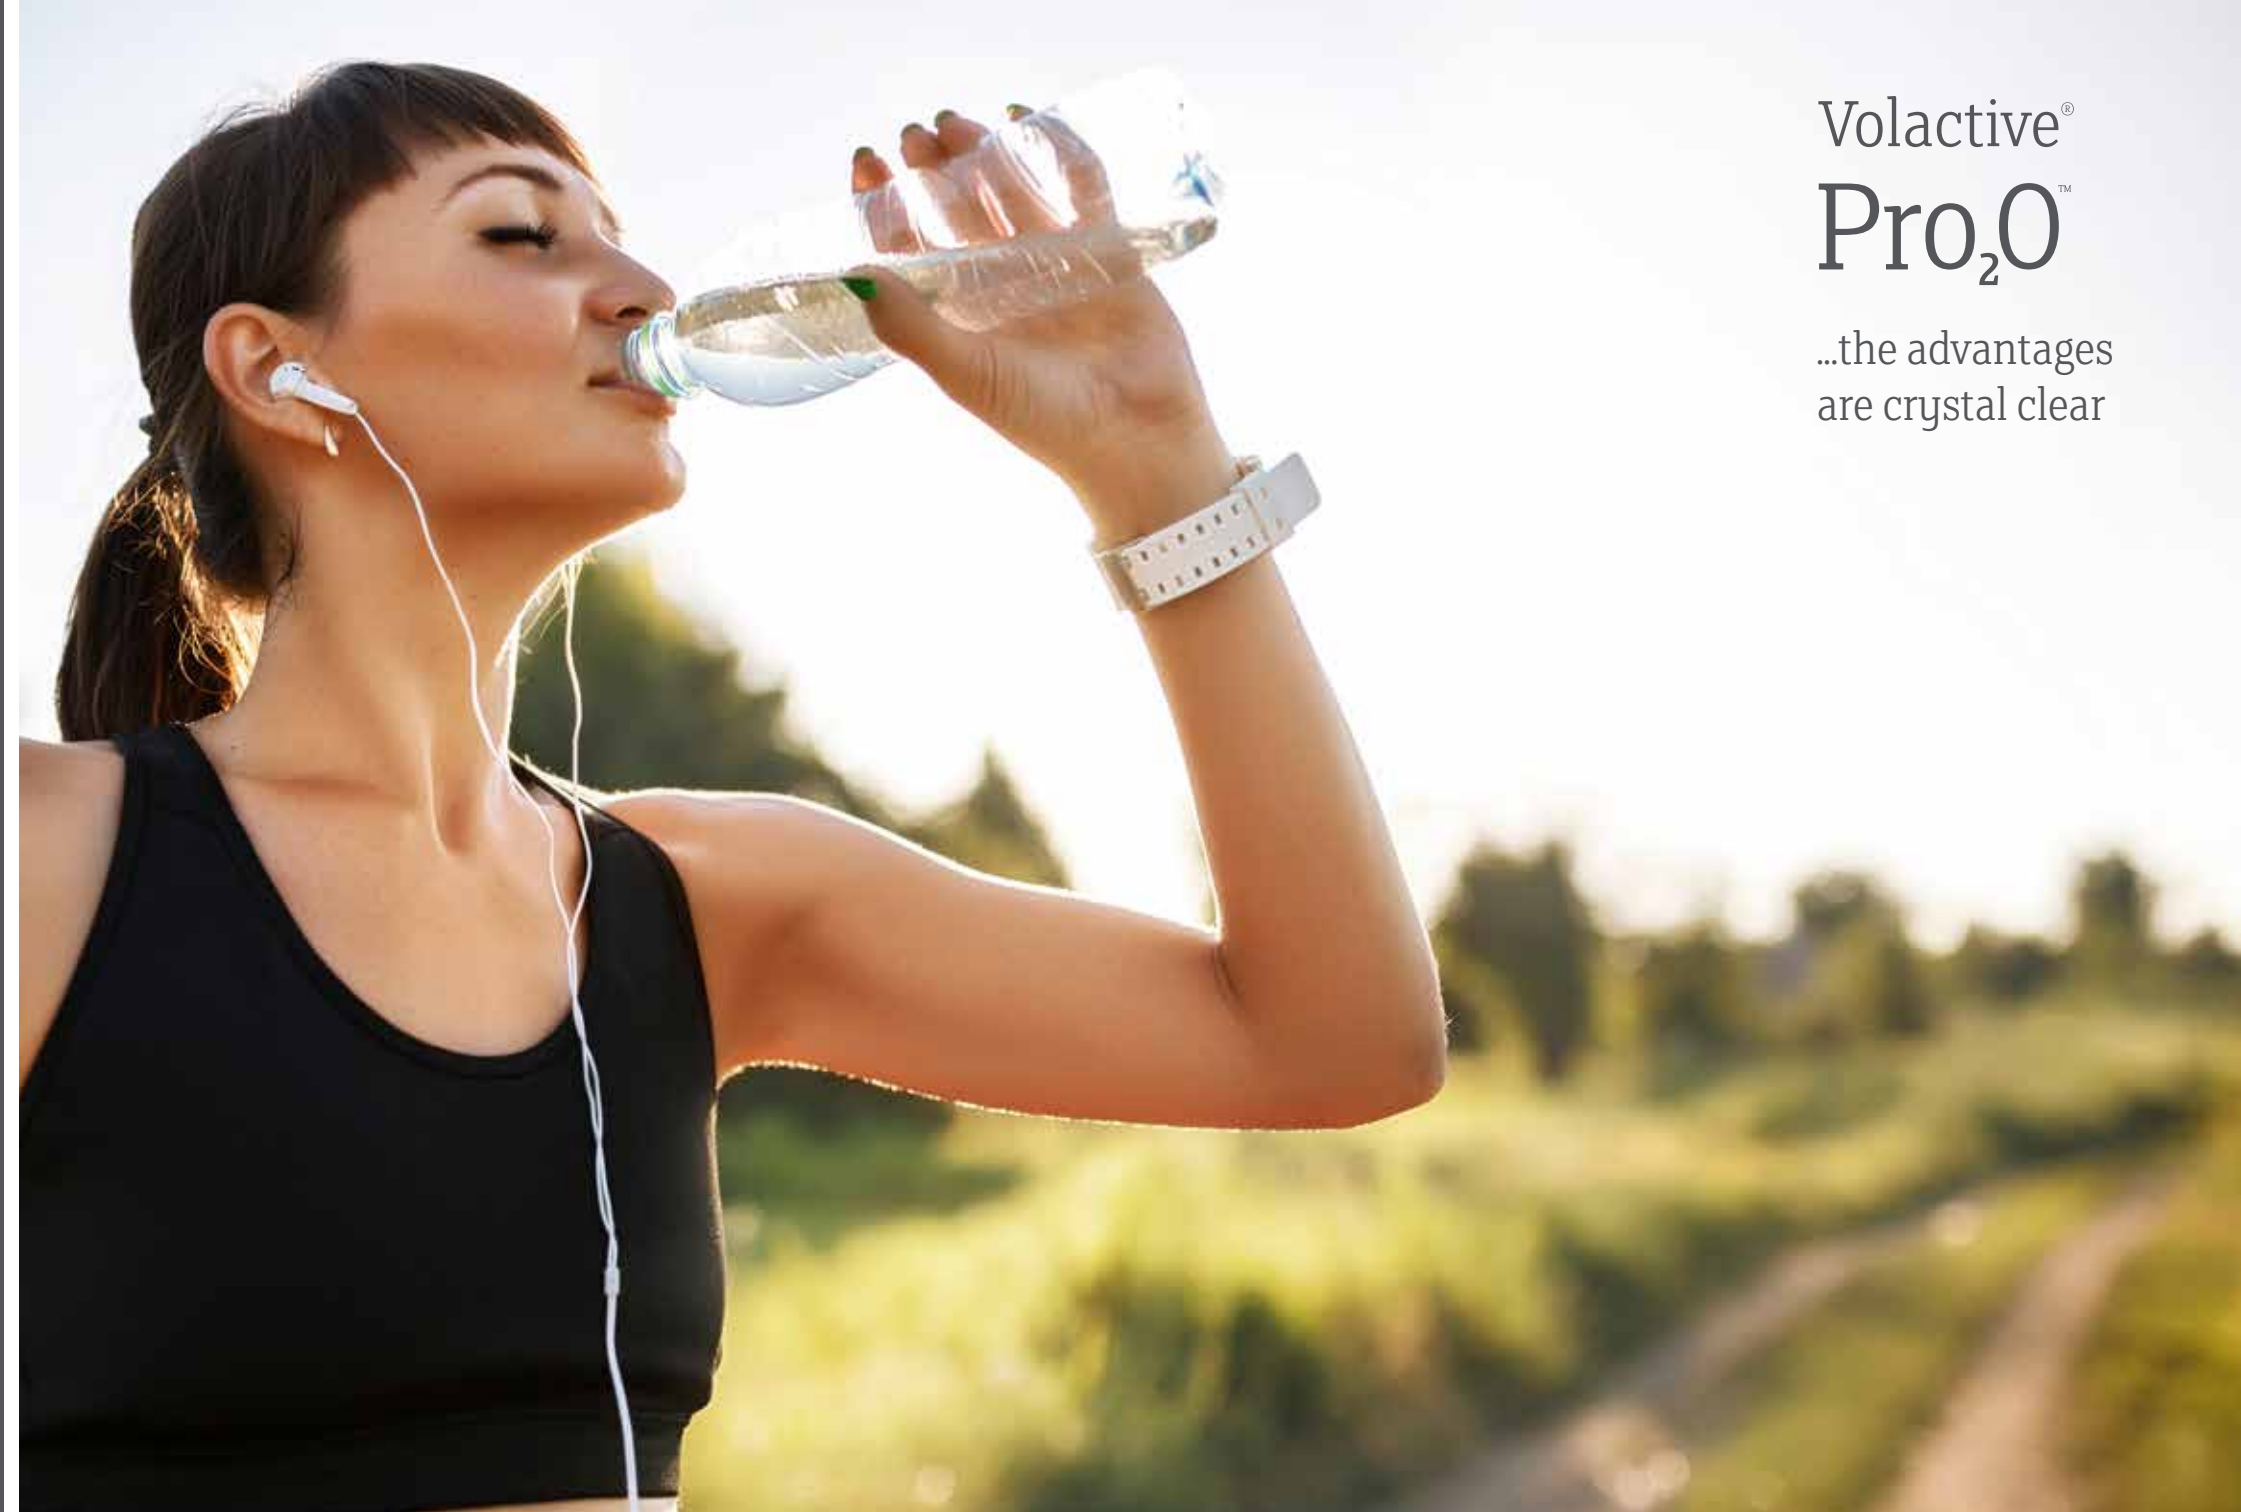

As demand for clean label continues to grow, we see the soft drinks category revitalised by reformulations that contain natural ingredients with a growing number of health benefits.

This exciting growth is the driving force behind the functional hydration market. **Volactive® Pro₂O™** is the ideal ingredient to enhance and improve products by meeting both protein and hydration needs in one crystal clear drink.

CREATING THE PERFECT PROTEIN WATER BLEND HAS NEVER BEEN EASIER

Volactive® Pro₂O™ is specifically engineered to produce protein waters with the ultimate clarity.

Containing only trace levels of fat and ash whilst delivering our highest protein content, **Volactive® Pro₂O** has a neutral pH, offering a clean flavour with no astringency.
